What Is “Authentic Umeshu”?

Authentic umeshu is ume liqueur that is made only with ume fruits, sugars and alcohol and does not contain acidulants, colorings or flavourings.

Umeshu Flavour Map illustrates three characteristics of umeshu: sweetness, aroma, and acidity.

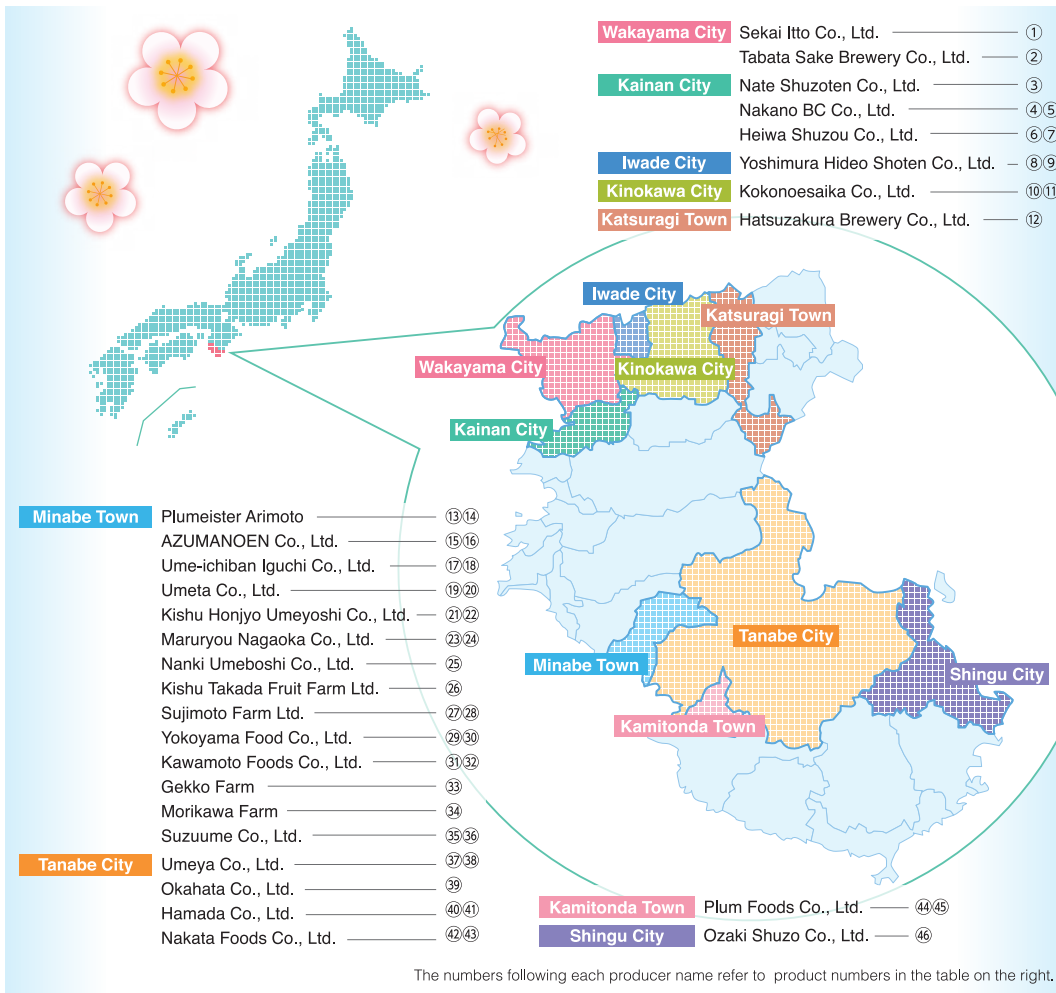

Target: 46 types of authentic umeshu made by sake brewers, umeboshi (pickled ume) manufacturers, and ume fruit farmers in Wakayama Prefecture

What is “GI Wakayama Umeshu”? GI Wakayama Umeshu is authentic umeshu that is recognized by the “GI Wakayama Umeshu Management Committee” to be of high quality assured by the following production standards.

Main production standards for GI Wakayama Umeshu

Ume fruits used in the production shall be only fresh green or ripe ume fruits harvested in Wakayama Prefecture. Alcohol content must be 10.0% or more and less than 35.0%. Ingredients other than alcohol and ume fruits shall be limited to ume fruit pulp, ume juice, sugars, sugar-contained substances, and carbonic acid. Ume fruits shall be used at least 300 kg per 1,000 L of alcohol in which the fruits are soaked. The process of soaking ume fruits in alcohol, storing for brewing and bottling shall be completed in Wakayama Prefecture.
